

Tracemol Lift

A livestock supplement designed to provide the range of minerals and vitamins essential for healthy growth and optimum production. Contains a unique formulation of minerals, trace elements, electrolytes, protein, carbohydrates and vitamins blended into a rich palatable seaweed base.

Tailored Solutions, Proven Results

Tracemol Lift is a supplement designed to provide the range of minerals and vitamins essential for healthy growth and optimum production. It is made from the highest quality ingredients and is suitable for a wide range of animal types.

Directions for use:

Tracemol Lift can be administered by oral drench at intervals of 21 days, added to water systems or sprinkled on hay or dry feed. For convenience Tracemol Lift may be administered in conjunction with a normal drenching programme.

The Reaction Dairy Programme:

Tracemol Lift is part of The Reaction Dairy Programme. The Reaction Dairy Programme can be tailored to your farm's requirements and includes a combination of proven products which focuses on the animal, the pasture

and the soil. The programme may include lime, solid and soluble fertilisers as well as our extensive range of multi-blend liquids, soil conditioners and superior range of minor elements. This combined with our monitoring service ensures optimum results for your farming dollar. Please phone 0800 774 629 for more information.

Conditions of sale:

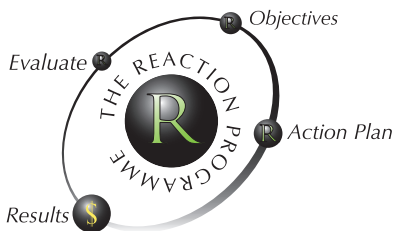

The use of this product being beyond the control of the suppliers, no warranty expressed or implied is given by Omnia regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not, and Omnia accept no responsibility whatsoever resulting from the use of this product.
