

TopTrace Dairy

A concentrated nutritional supplement containing essential trace minerals for dairy cows.
It is ideal for in-line dispensing.

Tailored Solutions, Proven Results

TopTrace Dairy – Trace elements for Dairy Cows

TopTrace Dairy is a high quality nutritional supplement containing those trace elements most likely to benefit New Zealand pasture-fed Dairy cows. Seaweed has been blended into the concentrate for improved palatability, enhanced uptake, and to provide amino acids. The trace elements cobalt, copper and zinc are chelated for stability and optimum uptake. TopTrace Dairy does not contain chlorides and sulphates and is not harsh, corrosive or acidic.

TopTrace Dairy is easy to administer by in-line dispenser, oral drench or by

adding to trough water. It is compatible with all supplements commonly used in in-line dispensers.

The Reaction Dairy Programme:

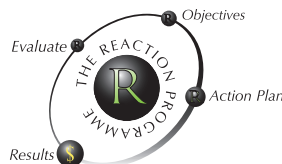

TopTrace Dairy may form part of The Reaction Dairy Programme. The Reaction Dairy Programme can be tailored to your farm's requirements and includes a combination of proven products which focuses on the animal, the pasture and the soil. The programme may include lime, solid and soluble fertilizers as well as our extensive range of multi-blend liquids, soil conditioners and superior range of minor elements. This combined with our monitoring service ensures optimum results for your farming dollar.
