

# Terraboost

Soil conditioner and rejuvenator

## Tailored Solutions, Proven Results

### Terraboost is a concentrated solution of humates designed to:

- enhance the effectiveness of applied fertilisers
- improve physical characteristics of clay and sandy soils
- stimulate soil biological activity and speed up nutrient cycling
- increase the availability of phosphates and calcium
- act as a powerful chelating agent to elevate cation exchange capacity

### Application Rates:

Application rates vary with soil type, crop and soil fertility. For application rates specific to your needs, please consult with your Omnia Specialist.

### Directions for use:

Thoroughly shake the container before use. Agitate while filling tank and agitate until spraying is completed. When using the highest application rates use the highest recommended water rates. Do not spray pasture in direct sunlight, in the wind or in high temperatures or at any time of rapid drying. Always use protective clothing and equipment when handling concentrate and spraying, and wash afterwards.

Ensure spray equipment is clean before use and that all equipment is washed after use. Store in a safe place and do not allow prolonged exposure to high or low temperatures. Omnia products are compatible with a range of other agrichemicals. Stability can be checked by adding a proportionate amount of this product to a sample of previously mixed spray.

### Mixing:

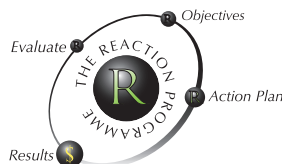

First add the base Omnia product to water.

Then mix in additives such as trace elements. DO NOT attempt to mix undiluted products. Other agrichemicals may be added either first or last.

### Conditions of sale:

The use of this product being beyond the control of the suppliers, no warranty expressed or implied is given by Omnia regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not, and Omnia accept no responsibility whatsoever resulting from the use of this product.
